---

## System Requirements:

Orca is designed to work with certain gamepads, but it will work with any gamepad that is compatible with the Windows 7 operating system. If your gamepad has a Linux driver, it should work with Orca. There are also several options for using a gamepad with Orca, including a joystick mode, an auto mode, and direct keyboard/gamepad input. For a complete list of gamepads supported by Orca, check out our Gamepad support page. Orca only works with a computer that is connected to a TV set.
